experiences that last a
lifetime

• THE • TEACH • COMPANY •

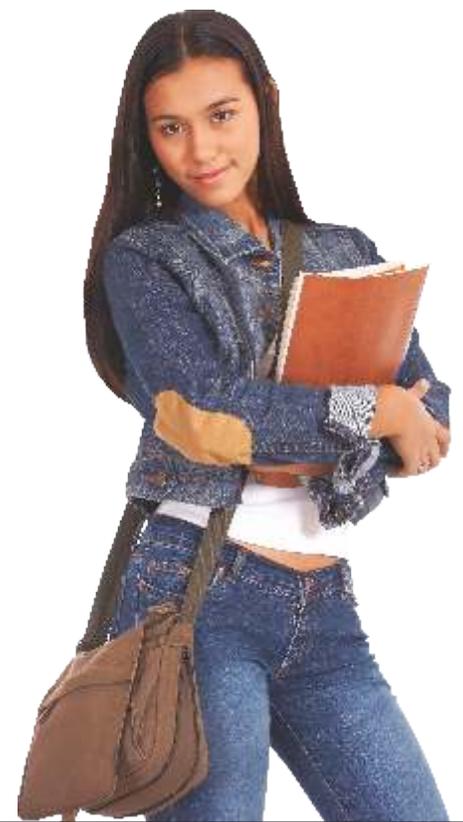

is an educational and learning based travel company that offers students unique learning experiences within India as well as in the most fascinating destinations around the world. We offer educational tours, excursions, school & college trips, school picnics etc.

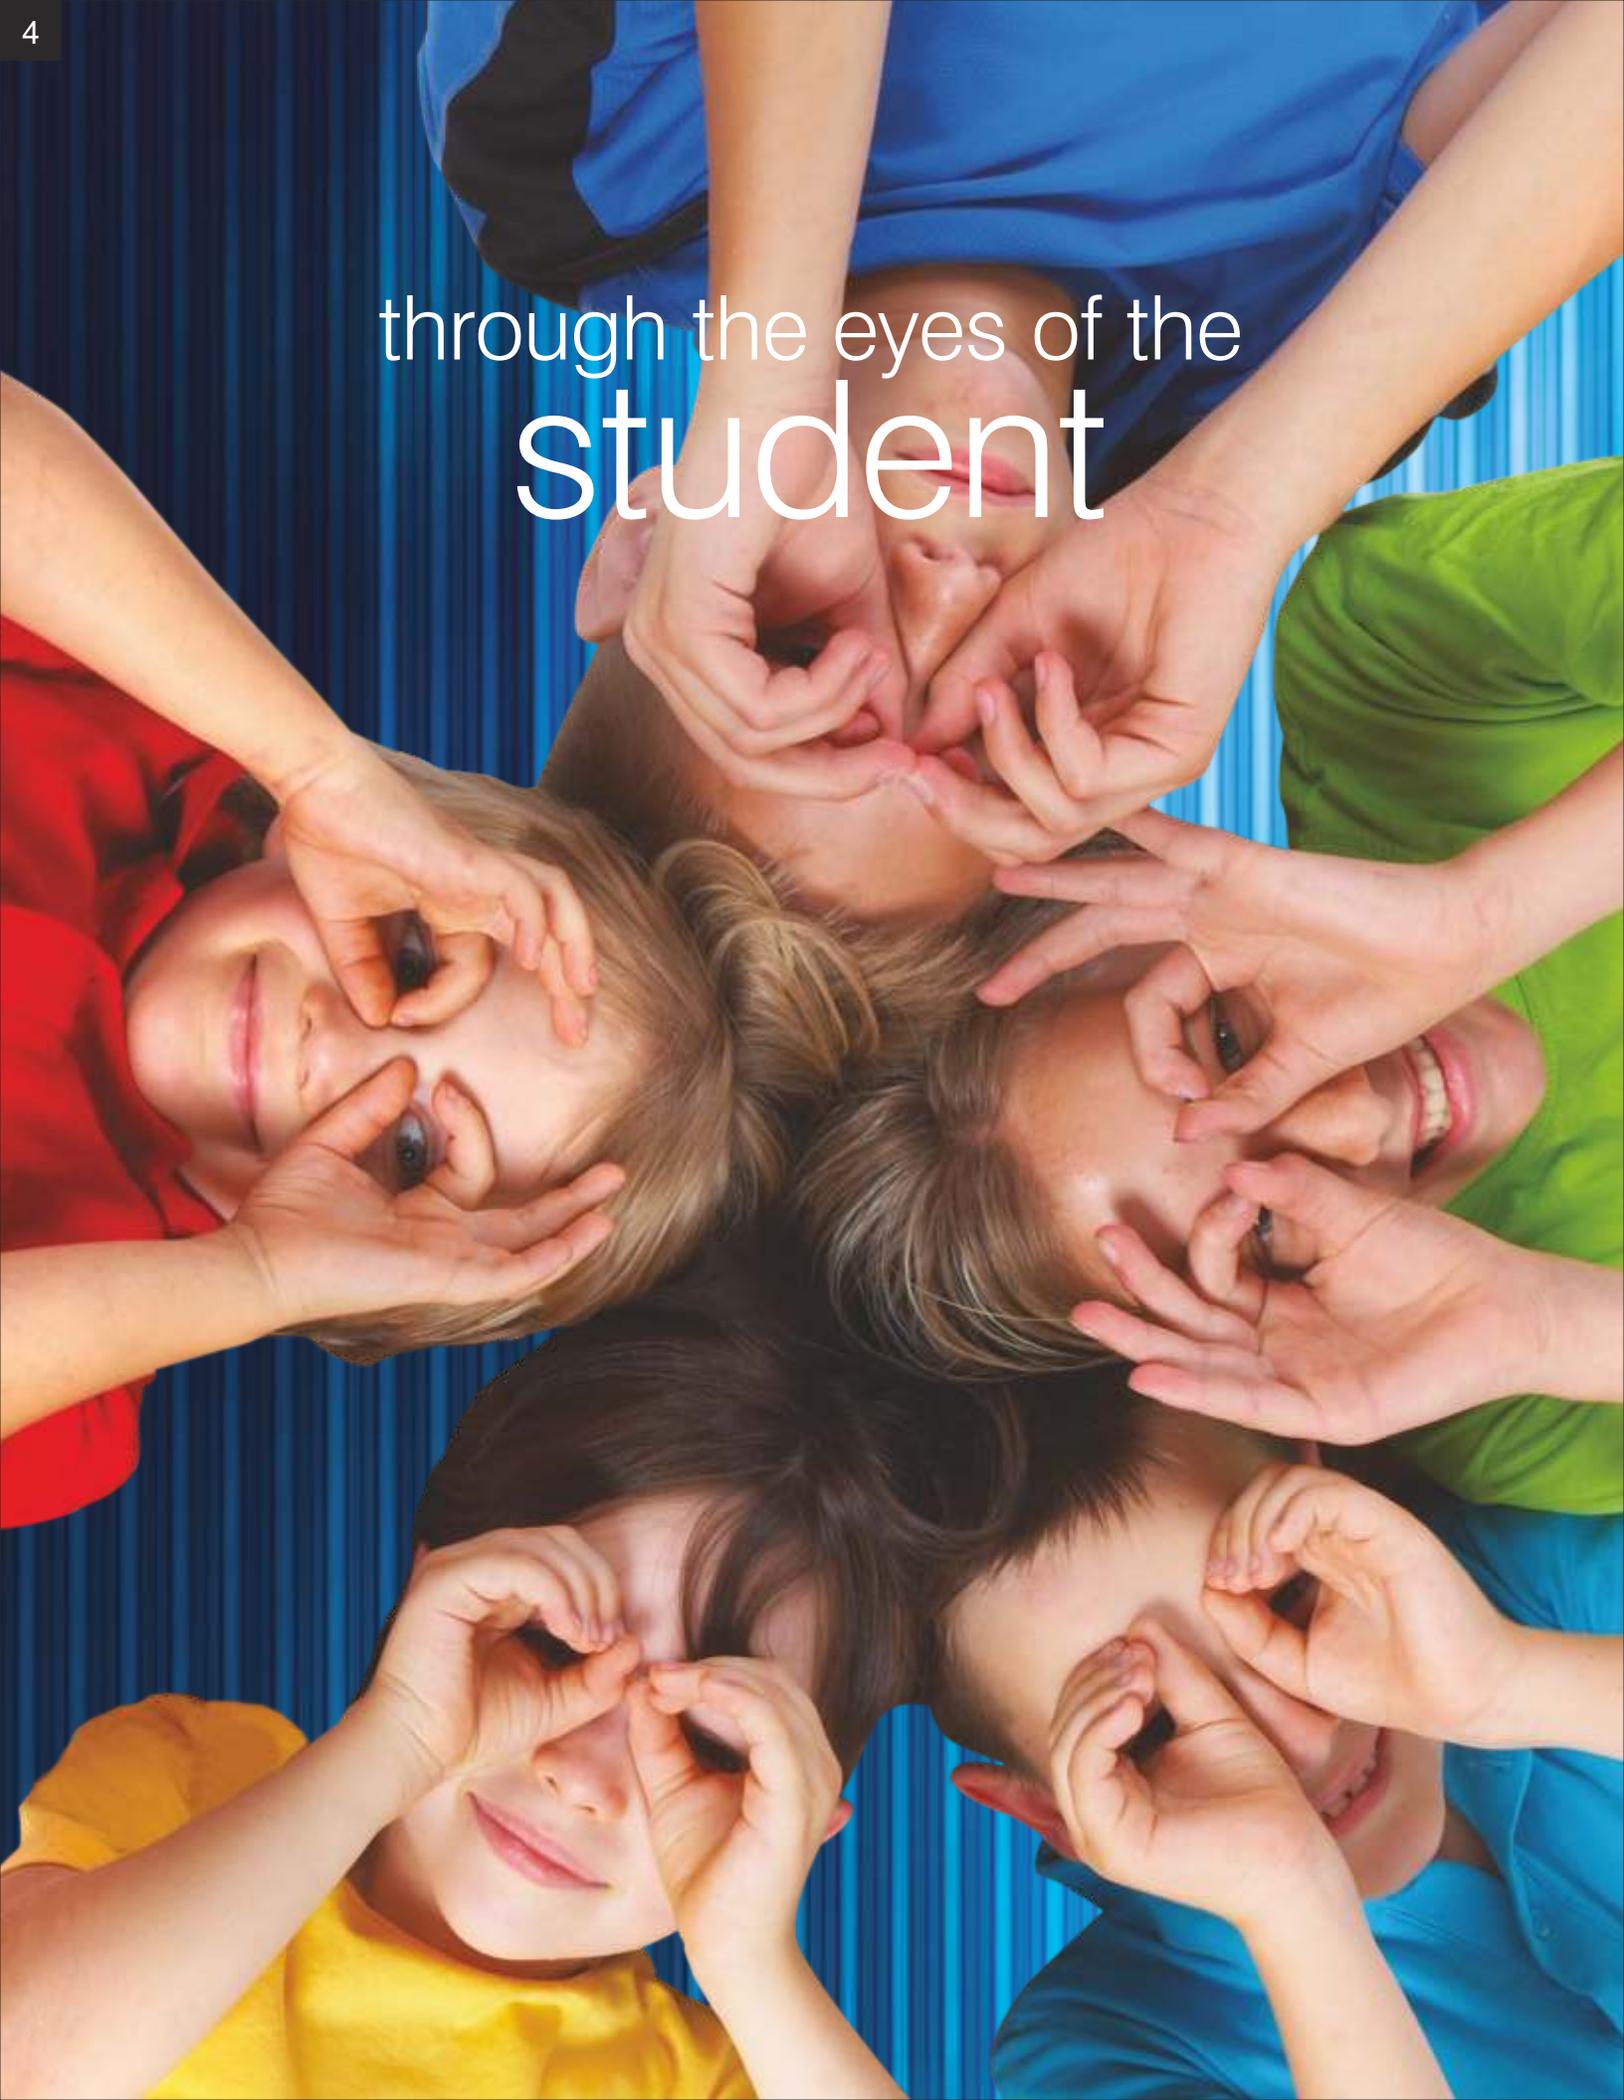

We offer a wide variety of carefully created itineraries, ranging from half-day local trips, to overnight learning experiences, to long domestic excursions, to 3-week long international educational trips.

Highlights

- Fine balance of active learning and fun.
- Unique, out-of-classroom experiences with value added inclusions.
- Curriculum based educational tours.
- Products to match all budgets.
- Well-trained, carefully selected tour managers who are sensitive, friendly and competent.
- Safe, secure environment at all times for the students.
- Wholesome, healthy meals.
- Comfortable travel and accommodation.
- Excellent track record of satisfied schools and students.

through the eyes of the
student

our. services

In simple words, we spread knowledge and happiness.

Education today is increasingly becoming more hands-on, with more and more emphasis on projects, interactive learning and on-field experiences. It is therefore imperative that educational tours and out of classroom learning become important teaching tools.

In this changing scenario, **The TEACH Company**, after extensive research and planning has created a host of services for school and college students.

We all know that learning can happen in several ways. Some students learn by reading, some by listening, some by watching and some by doing. However, it is a known fact that a great and effective learning tool for students of all ages are educational tours.

Our educational tours cover a wide variety of subjects and topics that may be part of their curriculum. A combination of fun and active learning provides the right environment for the students to learn, retain and retrieve. If education is presented in a fun manner, the rate of retention and recall increases exponentially.

Group experiences offer students a chance to engage with their peers, which enhances the learning experience for everyone. **Not only does this make studying more fun but also improves self esteem and enhances their social skills.**

With many years of experience in the educational tour industry covering a variety of exciting destinations in India and across the world, The TEACH Company is in the best position to satisfy the expectations of schools, students, educators and the students.

Our emphasis on safe, clean and unique experiences make learning that much more effective and fun.

designed to create special
moments

the products

Remember sitting on your father's shoulders and discovering the world? Remember the patient, caring manner in which he explained and answered your questions? At **The TEACH Company**, we recreate those magic moments to fulfill our mission of enhancing and augmenting classroom learning.

We have products to suit all age-groups and have learning experiences to fit all budgets.

- Micro tours
- Heritage walks
- Adventure camps
- Workshops
- Activities, etc.

myriad colours of India

domestic tours

India offers a wealth of knowledge and experience to students. Be it history, astronomy, science, nature, art, culture, architecture, industry, agriculture, India has it all. With an extra-broad-spectrum of experiences ranging from the ancient to the ultra-modern, India is a perfect destination for the serious and casual learner.

Apart from a choice of subjects, India also offers a plethora of natural settings ranging from the majestic snow capped Himalayan peaks, to thickly forested foothills, highly fertile Indo-Gangetic plains, the exciting and rugged Western Ghats, a coastline of nearly 8000 kilometers, deserts, rain forests, rivers, oceans, wetlands, drylands, farmlands and a huge variety of wildlife.

Besides, India is also a country filled with excellent man made structures such a palaces, forts, mausoleums, towers, places of worship, bridges, modern structures, institutions, industries, etc.

Add to this the great cultural and spiritual tradition that has woven a strong social fabric and an uninterrupted way of life for thousands of years.

Every one of these, packed with high educational value and experience. The TEACH Company has created great products that give students an opportunity to uncover and unlock the priceless value that India has.

creating citizens of the world

international tours

The world is our classroom

The cradles of civilisation - Egypt, Greece, Rome, the grand architecture and town planning of Europe, the mega structures of China. The unique natural beauty of Australia, the marvelous engineering industries of Germany and France, the universities and scientific establishments of USA, the rainforests of South America, the space centers of Russia, the northern lights of Scandinavia, the natural beauty of Eastern Europe, the Buddhist culture of South-East Asia, the rugged opulence of the Arab world,

One lifetime is not enough and at The TEACH Company, this is something that we realise everyday.

However, we have selected beautiful gems from around the world and have created several exciting, educational itineraries for school and college students.

Our international study tours range from short, 4-day affairs to long, elaborate two to three-week long experiences.

Every itinerary is power packed with interactive learning, activities, entertainment and local experiences to give the students tours that they'll remember for an entire lifetime.

Students participating in our global programs get the unique opportunity to experience new cultural, linguistic, religious and local traditions, grow in confidence and imbibe positive values.

up close with
mother earth

study nature

For students of Zoology, Botany, Ethology, Geology or Environment, nothing teaches better than touching, feeling and experiencing real specimens and samples.

The TEACH Company has several itineraries and destinations to inspire young minds to the natural marvels of mother earth.

From botanical gardens to volcanic rocks to migratory bird sanctuaries to reptile parks to conserved forests.

Studying sea turtles in Orissa, flamingoes in Kutch, elephants in Kerala, rhinos in Assam, tigers in Rajasthan. Valley of flowers in Utarakhand, rainforests of Kerala, jungles of Chhatisgarh, mines of Jharkhand, ice caps of Himalayas. Ocean currents in Andhra, river basins in West Bengal, soil in Uttar Pradesh or desert sand in Rajasthan.

Add to this the innumerable international destinations that your students may want to benefit from.

We arrange visits to research institutes for forests, fisheries, horticulture, soil research, wildlife conservation, environmental conservation etc.

At The TEACH Company we understand the importance of bringing students and nature close to each other. For only then can we hope to have a sustainable planet.

rediscovering our heritage

history tours

The Mughals, Guptas, British, Chalukyas, Pandyas, Cholas, Rashtrakuts, Hoysalas, Marathas, Peshwas, Kadambas, Gaekwads, Holkars, Nayaks ...

Alexander, Timur-e-lang, Sher Shah Suri, Changez Khan, Allaudin Khilji, Mahmud Ghazni ...

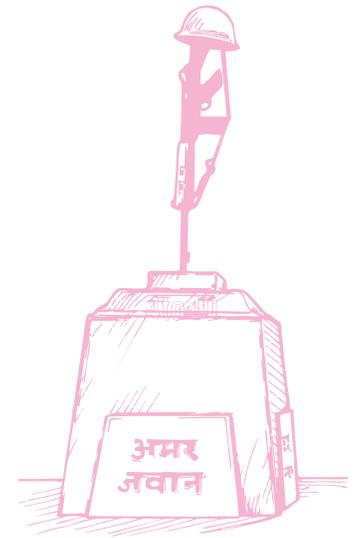

The battle of Plassey, battle of Haldighati, Panipat, Kalinga, the Carnatic wars, battle of Buxar ...

The uprising of 1857, Quit India movement, the Dandi march, the cellular jail of Andamans, Sabarmati Ashram, Goan revolution ...

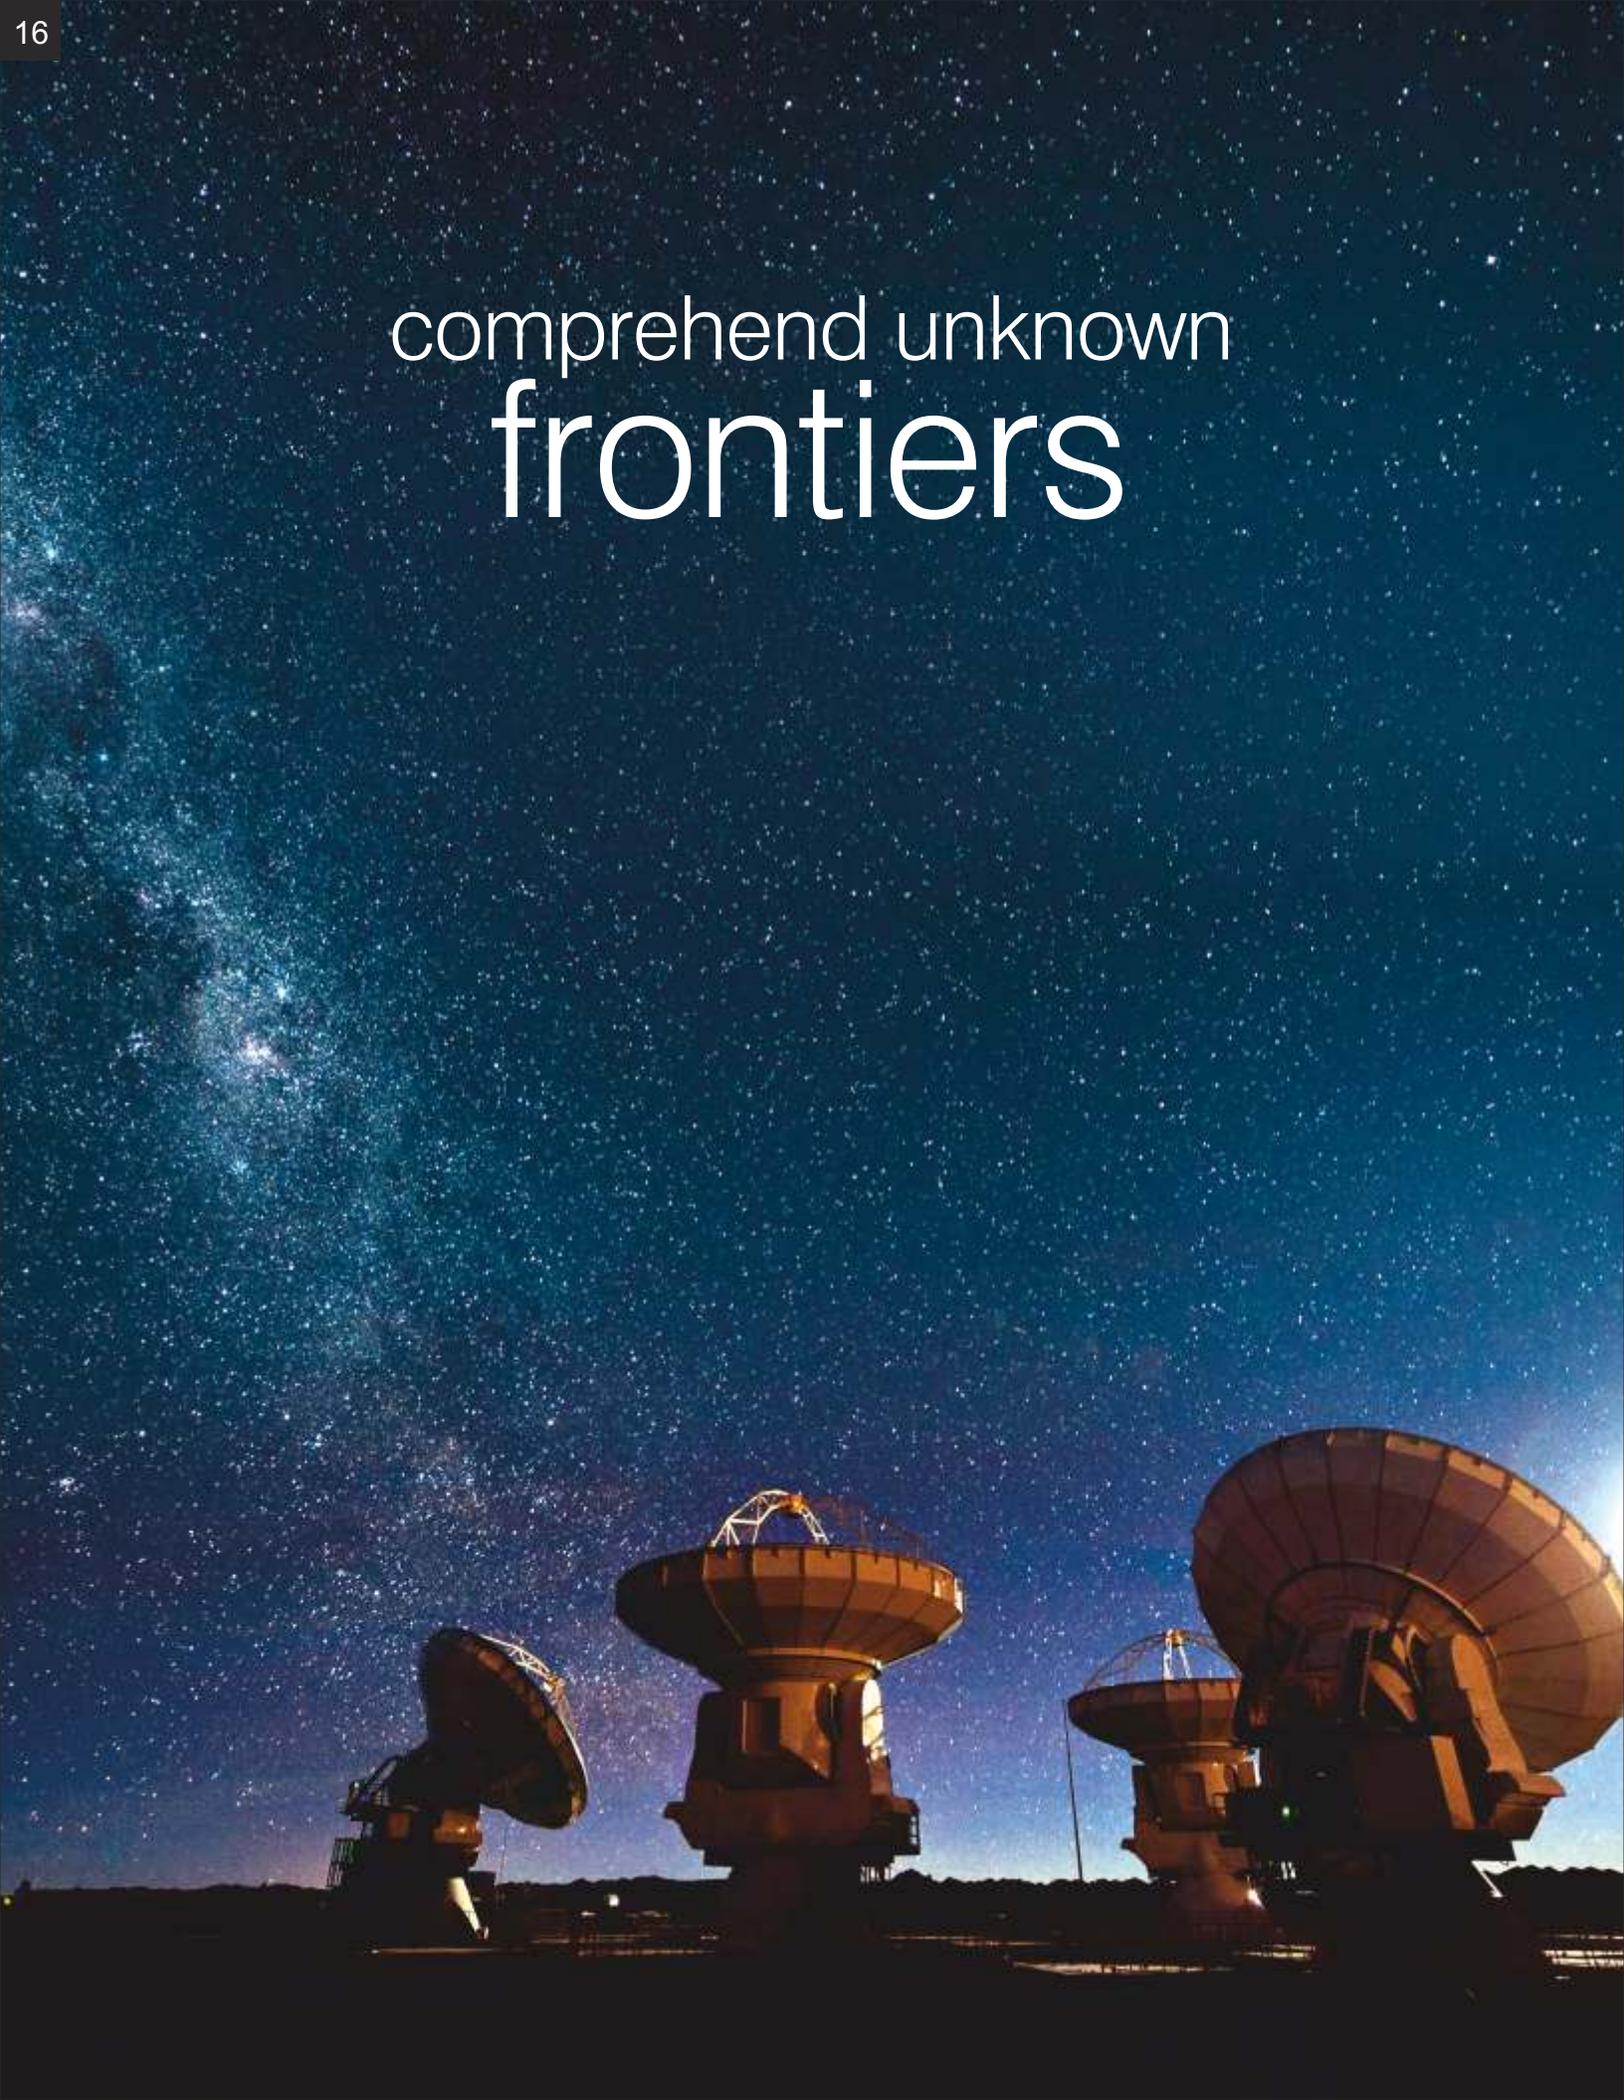

Monuments, palaces, places of worship, cities, towns, forts, museums, galleries, memorials ...

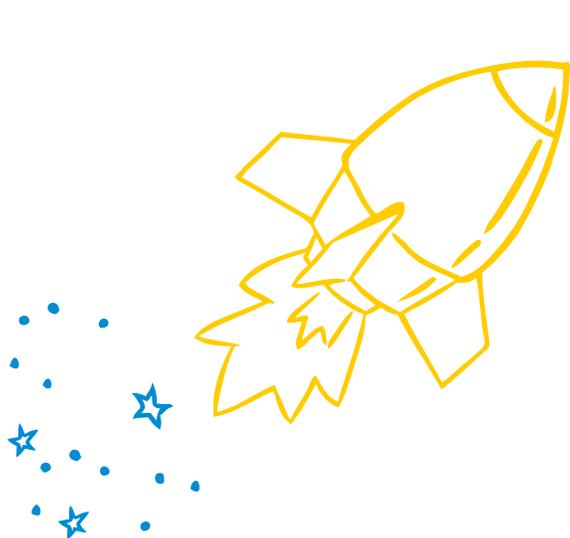

World history, French revolution, World War I & II, Industrial revolution, Renaissance ...

The TEACH Company brings to life the dusty chapters of history through thoughtfully designed tours that not only complement classroom education but also inculcate a respect and love for historical heritage.

comprehend unknown
frontiers

space trips

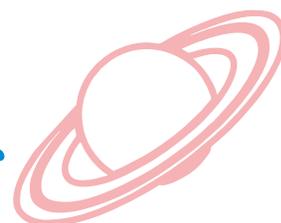

The final frontier ... nothing captures the imagination nor inspires so much awe as space ... that infinite expanse of stars, galaxies, planets, asteroids, comets and heavenly bodies.

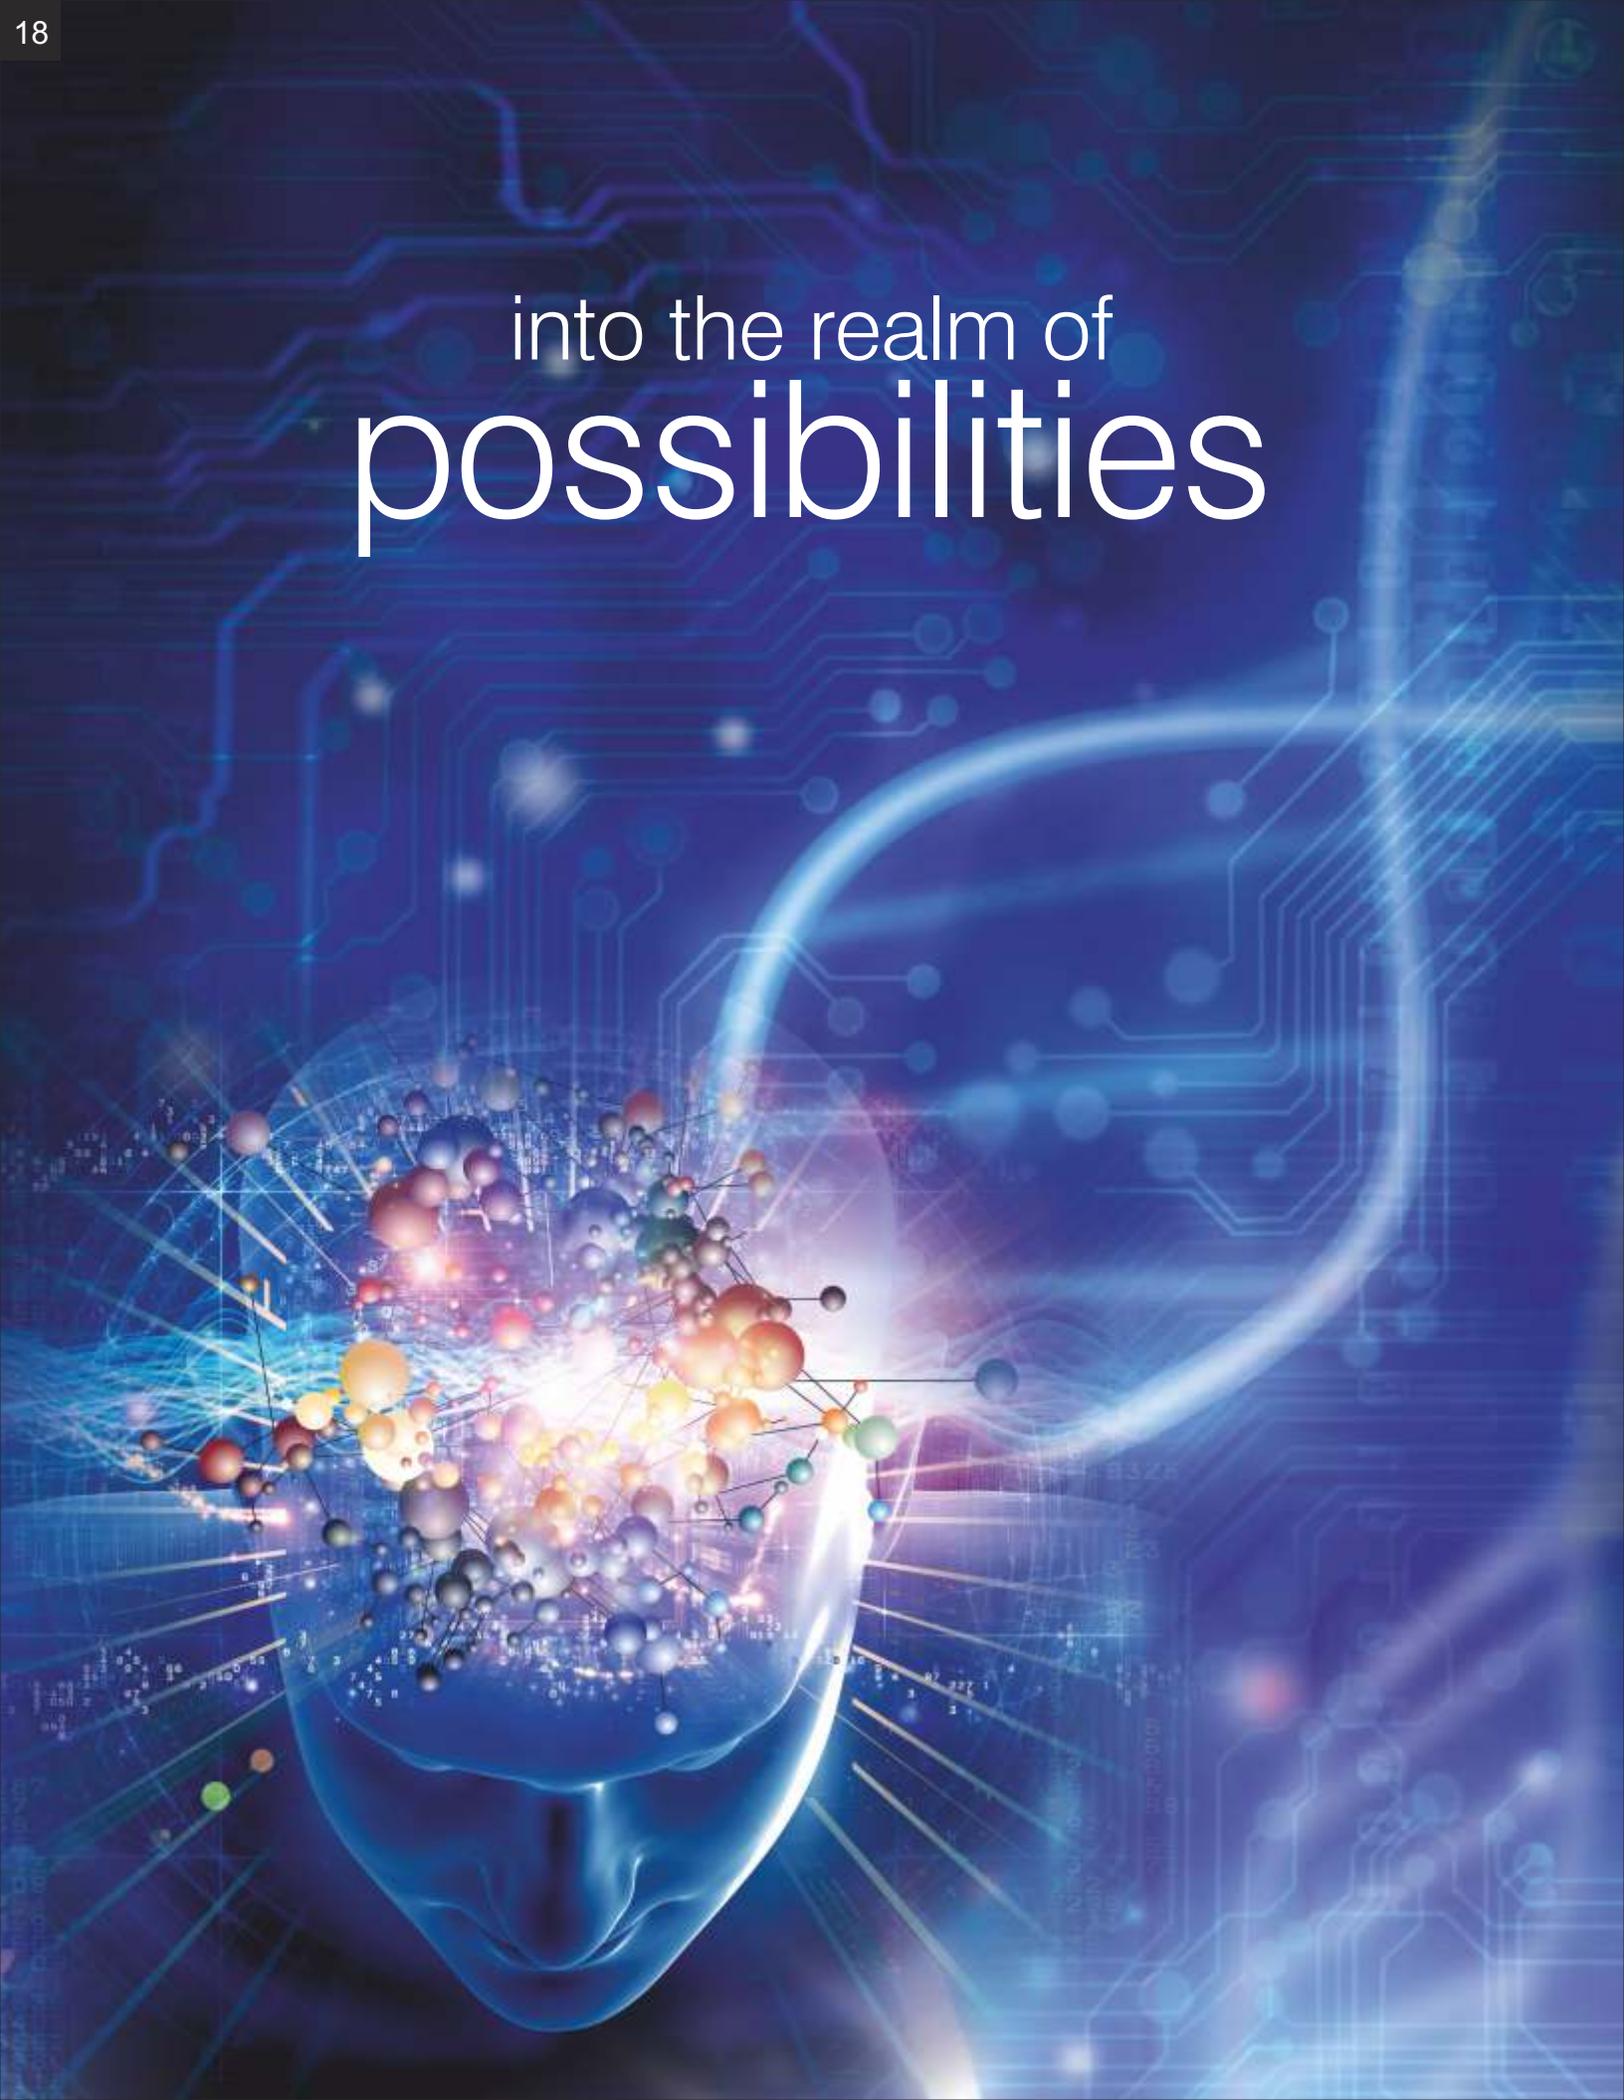

Is there life on other planets ... in other galaxies? What are pulsars? What is a black hole? How many stars are there in our galaxy? How do you calculate distances between planets ... or stars? Can I ride a space ship? What does it take to become an astronaut? Can I experience weightlessness? Why light years? What is a geostationary orbit? How do satellites get power?

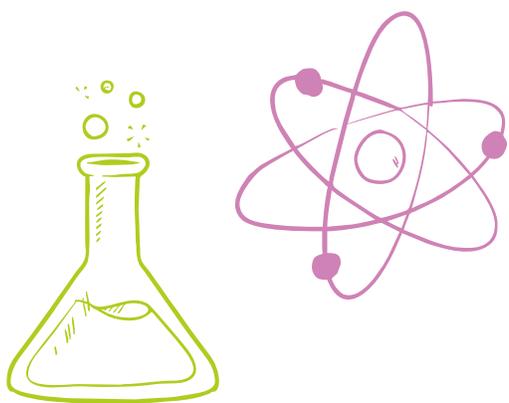

... these and a thousand other questions crop up in young restless minds. We at The TEACH Company have recognised that Space and Astronomy are subjects that are a hot favourite among students. That's why we have highly exciting and thoughtfully detailed tours to Space and Astronomy hubs such as NASA, European Space Agency, Russian Space Agency, ISRO, Vikram Sarabhai Space Centre, Observatories, Planetariums, etc.

We have carefully created overnight, short and long tour itineraries where we allow the students to experience the stars through powerful telescopes. We show them radio telescopes, optical telescopes, teach them star gazing and to identify stars, navigation with the help of stars and a host of other exciting experiences. Each one of our space tours is filled with fun-filled activities that make learning that much more entertaining.

into the realm of
possibilities

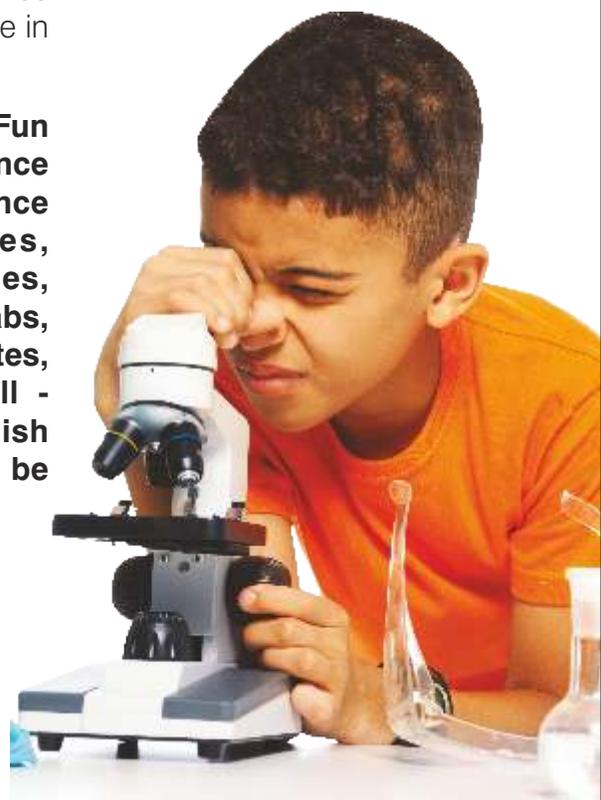

science tours

We live in an age where we are experiencing a gradual shift in our belief systems to a more rational and scientific thought process. The learning and teaching of science in schools and colleges has contributed immensely to the evolution of modern India.

While we have produced a galaxy of scientific geniuses such as Sir C.V. Raman, Dr. A.P.J. Abdul Kalam, Dr. Vikram Sarabhai, Dr. Homi Bhabha, S. Ramanujan, Subrahmanyam Chandrasekhar, Satyendranath Bose, Meghnad Saha, P.C. Ray, Dr. Raja Ramanna ... we still have to attain the status of a scientific and technological superpower like the USA or Germany or France.

To inspire the young generation and to motivate them towards scientific pursuits, The TEACH Company has identified and created several educational itineraries that not only educate the student on topics that are in the curriculum but also what would interest them.

Robotics, Aero-modelling, Flight Simulation, Fun with Science Residential Workshops, Science Experiments Residential Workshops, Science Museums, Interactive Science Activities, Research Institutes, Research Laboratories, Biotechnology Labs, Botanical Research Labs, Agricultural Universities, Dairy Science Institutes, Analytical Laboratories, Center of the Cell - London, Singapore Science Center, Spanish Vineyard and Cheese making, ... the list can be exhaustive.

challenging one's
limits

adventure tours

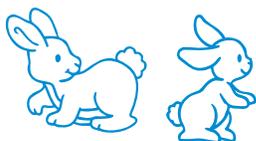

The great outdoors, vast open skies, rugged mountains, gushing rivers, dense woods ... Perfect for adventure activities.

The TEACH Company has identified superb places where students can compete with each other, challenge their fears and push their limits.

Adventure activities such as wall climbing, rappelling, rope climbing, bridge crossing, obstacle courses, treasure hunts, camping, tenting, kayaking, rafting, trekking, hiking, ziplining, zorbing, etc. can be organised either in natural surroundings or in dedicated adventure zones.

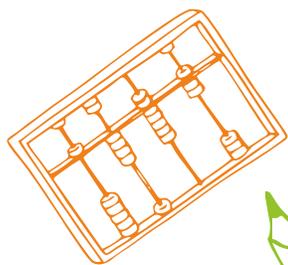

Adequate safety measures like safety helmets, life jackets, harnesses, belts, gloves, etc. are provided to every participant. Appropriate instructions, do's and don'ts, tips and techniques are also shared with the students.

Adventure activities improve confidence, promote collaboration, inspire positive action and enhance the personalities of children. Children love adventure, therefore, students must be given an opportunity to experience new things, test their limits and develop their overall personalities.

the ecstasy of
creating

hobbies & skills

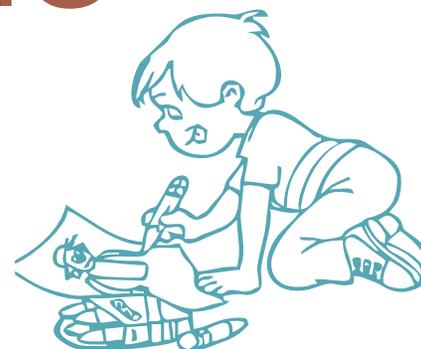

We live in a multi-tasking world, where one is expected to possess a variety of skills at work, play and at school. While formal academics equip the student with subject knowledge, skill acquisition is largely left to the individual student.

The TEACH Company hopes to empower school and college students by organising workshops, learning days, camps and skill imparting classes on a frequent and regular basis.

Skills taught would be as mundane as safely changing a lightbulb, to learning magic, making short films end-to-end.

Communication skills, E-mail etiquettes, Telephone etiquettes, Photography, Cartooning, Art, Dancing, Learning to use an Abacus, Using a Slide-rule, Vedic Mathematics, Speed Reading, Improving Memory, Time Management, Public Speaking, Debating, Creative Writing, Pottery, Origami, etc.

Besides, our network of professionals also equip us to conduct sessions on Emotional Intelligence, Career Guidance, Personality Development, First-aid, Technology Updates, Relationships, Sex Education, etc.

the formula for bonding

family plus

A unique concept from The TEACH Company - school tours with families of the student. Such experiences offer students, teachers, schools and parents to have more opportunities to build relationships with each other, know and understand each other better and most of all spend quality time with each other.

Family Plus creates the positive space for this important relationship chain to develop, evolve and sustain. While PTA meetings and open-days definitely provide interaction, it is strictly business. Having students, teachers and families learning, staying and playing together creates strong relationships both ways.

Such tours are recommended for itineraries of 2-3 days. While this gives ample time to strike a positive chord with each other, it also gives enough time to relax, unwind and become comfortable with each other.

The TEACH Company has identified several destinations and properties where such tours and interactions can happen

the hallmark of
civilisation

art & culture

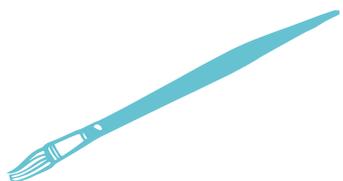

Tours to various parts of India, showcasing the rich wealth of art, craft and culture. The TEACH Company believes in enriching the lives of students by exposing them to folk, classical and contemporary art and culture.

Whether it's a Kathak recital, or Elephanta festival or Konark festival, Surajkund Craft Mela, Art Galleries, Tribal Art Museums, Museum of Contemporary Art, Classical Music Concerts, Philharmonic Orchestras, Mime Performances, Puppet Shows, Circuses, Stand-up Comedy Shows ... students will gain from the rich tapestry that India has to offer.

The London Theater tour and workshop is a premium showcase tour that The TEACH Company has, as an example of international cultural experience.

Guided tours to the Film and Television Institute of India, National School of Drama, Prithvi Theatre, Sir JJ School of Art, Maharaja Sayajirao University Fine Art Department, Shantiniketan, Bharat Bhavan Bhopal, Kala Bhavan Goa, Nrityagram Bangalore, Cholamandalam Artists Village and tens of such venues are made available for student groups.

The TEACH Company is committed to inculcating art appreciation among young students so that they learn to nurture the creative spirit and enrich their lives.

the secret of
harmony

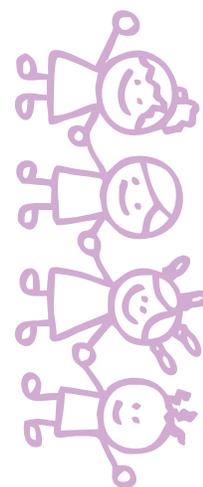

value education

Every one of the tours or trips conducted by The TEACH Company has fun-filled activities that reinforce positive values among children.

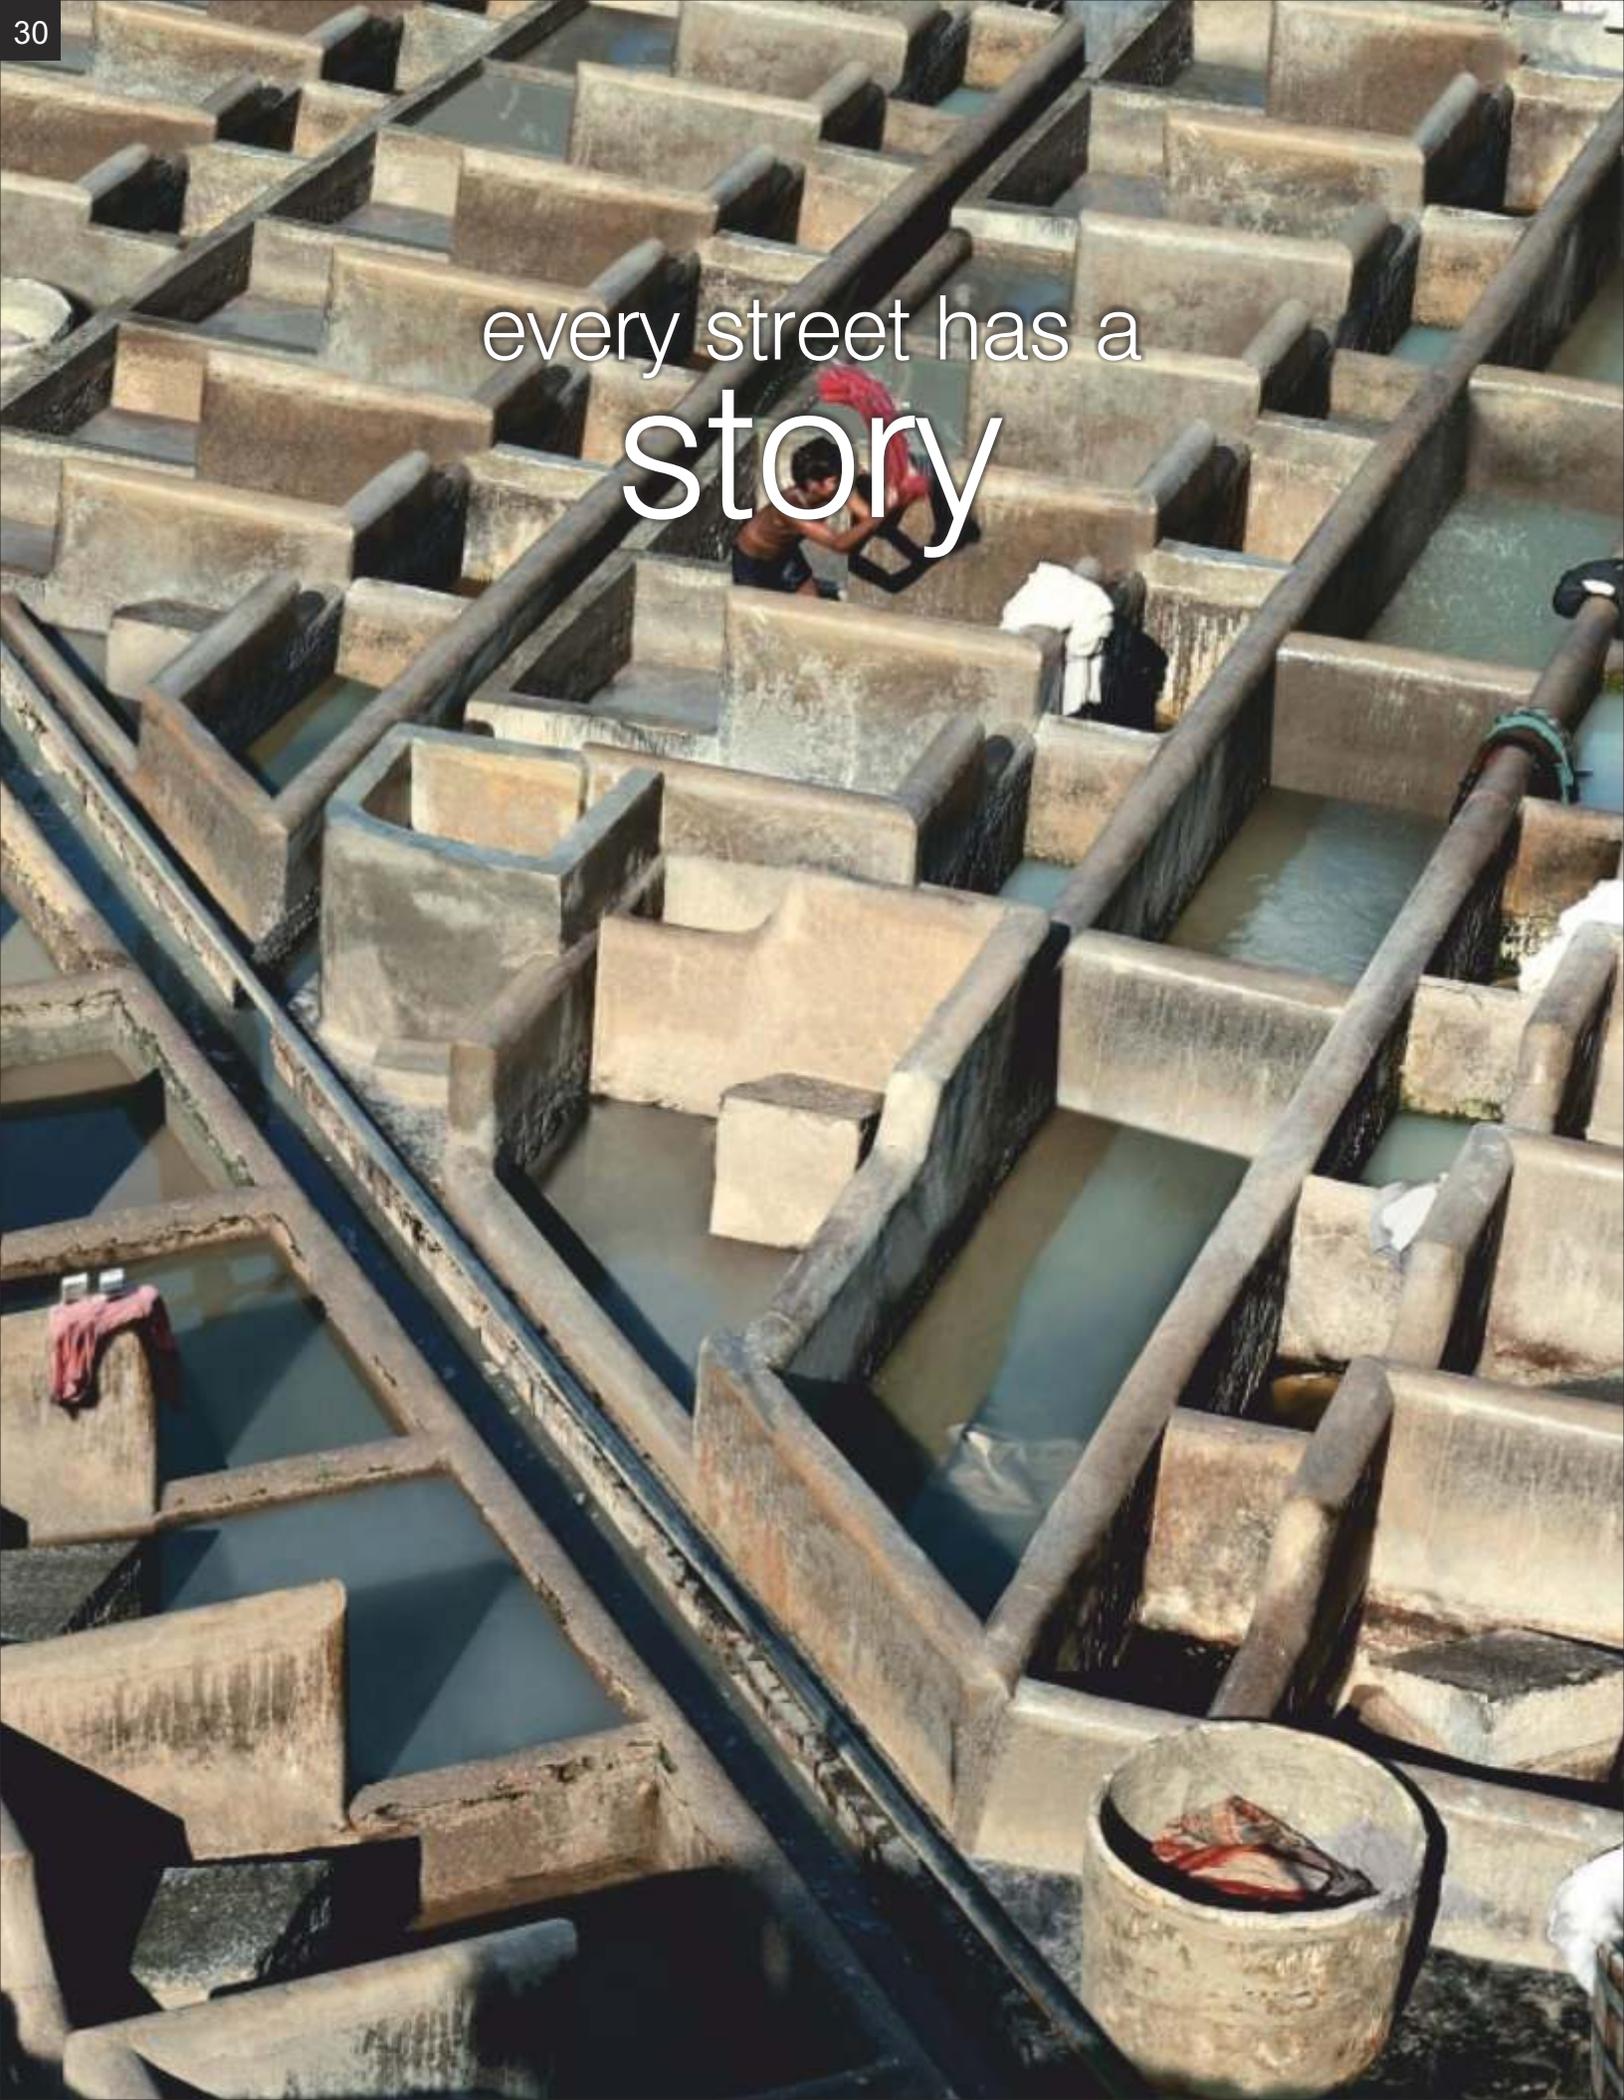

As more and more families are turning nuclear and as Television and Internet dominate the young mind, it becomes imperative that additional channels of value education be opened for children apart from schools and homes.

Our activities during the trips, create opportunities for students to imbibe the spirit of team-work, sensitivity to others, competition, care for the environment, social awareness, dignity of work, respect for all, equality and several other positive reinforcements.

Workshops on physical health, hygiene, etiquette, social behaviour, charity, good manners, etc. Socially Useful Productive Work (SUPW) activities such as tree plantation, environment walks, best out of waste, etc. will not only make society better but will also instill pride and responsibility towards society.

every street has a
story

micro tours

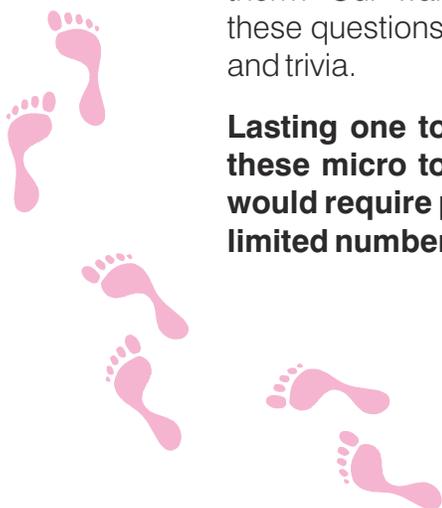

We walk those streets every day without realising the history in it. We see those buildings and pass them by, nonchalantly, not knowing the wealth of heritage contained in them.

Micro tours or walking tours or heritage walks gives us an opportunity to know our cities and towns better. Several buildings, institutions, parks, utilities have interesting stories to them. When we hear those stories as we look at them with renewed vision, we appreciate their presence and contribution to our lives.

Children, especially, would find it interesting to discover highly interesting portions of their localities which they never knew existed, or with the help of an expert from The TEACH Company they can gain a detailed insight to historic buildings in their cities.

Every city, every town has hundreds of streets named after people. Who were those people? What was their contribution to the city to have streets named after them? Our walking tours can uncover and answer these questions with entertaining and interesting facts and trivia.

Lasting one to two hours, on Sunday mornings, these micro tours are usually free of charge but would require prior registration and can only have limited number of people participating.

the wheels of progress

institution & industry tours

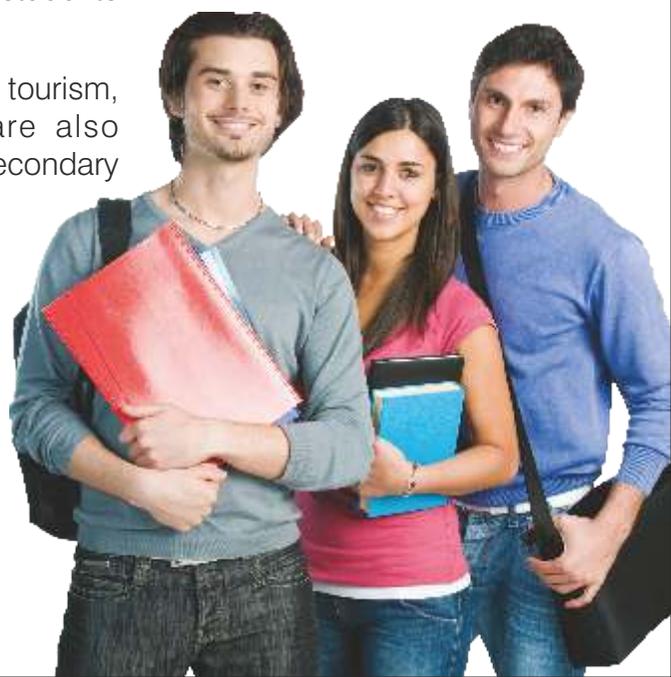

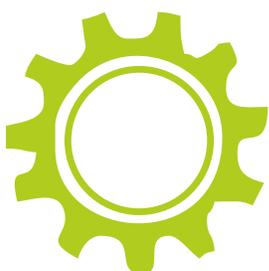

Students studying in professional courses such as Management, Engineering, Architecture, Pharmacy, Medicine stand to benefit immensely when they are taken on industrial and institutional tours.

Visits to Automobile Factories, Power Plants, Construction Sites, Pharmaceutical Companies, Oil Refineries, Engineering Companies, Ports, Cargo Terminals, Software Companies, Call Centers etc. give them first hand information about the industry, its workings and several finer points which would be unavailable to them if such visits were not available.

Additionally visits to world-class institutions such as IIT, IIM, NID, AIIMS, CMC, ISRO, NCL, and several other top class institutions of the country expose them to a world that's aspirational.

Tours to International Universities in the UK, USA or industries in Germany, France or Italy organised by The TEACH Company broaden the outlook of the students and inspire them to perform better every time.

An important and vital aspect of educational tourism, our institutional and industrial tours are also recommended for school students of senior secondary and higher secondary classes.

the power of
enjoyment

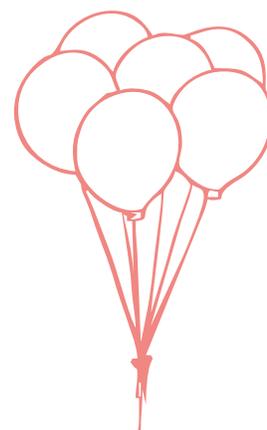

fun tours

Although we are primarily an educational tours company, we also understand and believe that there have to be 100% fun trips. "All work and no play makes Jack a dull boy" says the maxim - and we put as much effort in detailing total, fun-filled experiences for your students.

The TEACH Company organises fantastic Picnics, visits to Amusement Parks, Theme Parks, Water Parks, Resorts, Game Parlours, etc.

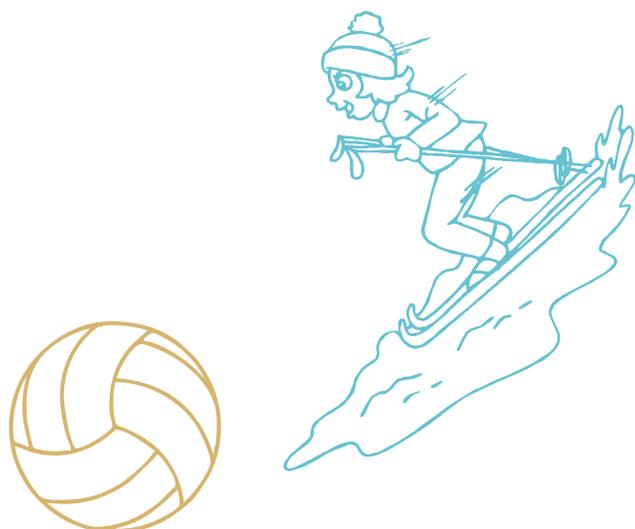

During such trips, the students are kept fully entertained and delighted by our funscorts, who not only play game host to the children, but also indulge them with food they love.

You can choose from a number of packages within your city or on the outskirts or even in nearby locations depending on your requirement and budget. However, whichever package you choose, you can be sure of one thing - The TEACH Company experience.

the spirit of
playing

sports tours

Imagine Skiing in Gulmarg, Kashmir or even Switzerland, Cricket coaching camp with a retired test cricketer, or with Coach Gary Kirsten Academy, ex Indian team coach who trained the World-cup winning team, Soccer training camp at Real Madrid Club, Basketball coaching at the Michael Jordan Training Camp, it all seems too good to be true.

However, it's all true and possible. The TEACH Company has several such itineraries throughout the year that offer excellent opportunities to students and aspiring sportspersons to attend such camps and aim for the big league.

Not only this, we also regularly organise tours to The Gothia Cup, Junior Soccer tournament. Besides, The TEACH Company also provides several opportunities for young students to attend major national and state level sporting events.

More and more educators and parents are realising the great value that sports and sporting events have on the positive development of young people. Hence, sports tourism, as part of our educational tourism offerings, is an integral part of The TEACH Company's product range.

on-field coaching

tour escorts

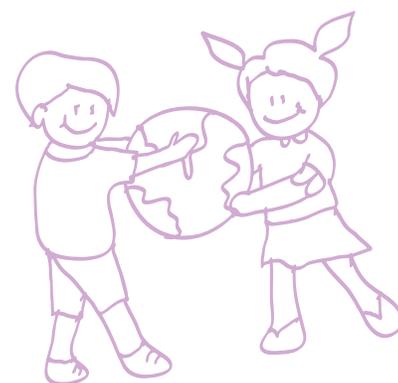

The tour escorts of The TEACH Company are not mere accompanying personnel but are active participants and leaders of the trip.

Whether it's a one-day trip to the local museum or a long tour to an international location, our tour escorts shall be responsible for maintenance of schedules, assistance and service.

Tour escorts are multitaskers, well trained to be caring, sensitive, gentle and firm with the students. They are also skilled at keeping the students inspired, motivated and entertained during the whole trip. That's why we call them "Funscorts" and also "Eduscorts" as they also posses and share with the students vital and interesting information about the destination.

Our escorts also lead the group activities and games during the tours and become highly popular with both, the students and accompanying teachers.

We take great care in selecting our escorts because they ultimately are responsible for delivering the TEACH experience to your students.

enjoy the difference

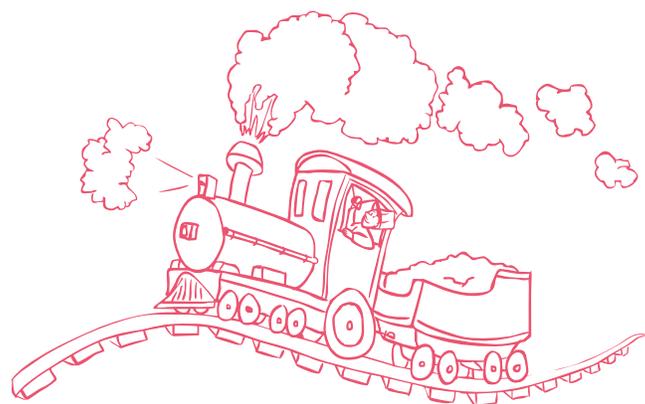

the 'teach'. experience

Out of classroom educational experiences organized by The TEACH Company is filled with unique experiences for the students. Experiences that not only reinforce the subject concepts taught in school, but also involve a lot of activities, programs and of course, plenty of fun and games.

Unlike ordinary tour operators, who only transport the students to desired destinations, we take an active interest in the education and all-round development of young minds.

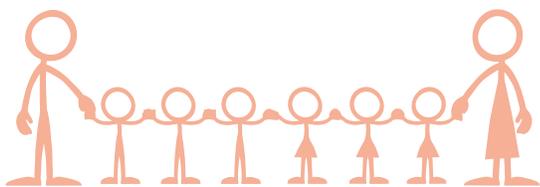

Every TEACH experience involves;

- Thoughtful Selection of Destinations
- Educational Content
- Group Learning
- Leadership
- Unity & Interdependence
- Sensitivity
- Safety & Security
- Value Education
- Independence & Responsibility
- Stimulating Activities
- Care for the Environment
- Respect for Heritage
- Loads and Loads of Fun

assurance of security

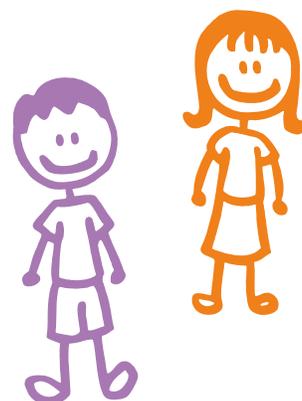

safety & security

Safety and security of students during tours and trips is an issue of extreme importance and priority for us. Every care is taken to ensure that the students remain protected and safe.

To ensure the protection of the students, we employ tried and tested operating methodologies such as

- Single point pick-up and drop
- Closed buses/vans with adequate back-ups
- Detailed time-schedule and route of the trip
- Strict adherence to routes and schedules
- Complete contact information of tour escorts, bus drivers, attendants, bus number, etc.
- Trained escorts from the start till the end of the trip
- Female tour escorts for girl students
- Compulsory teachers' participation on all tours
- No dangerous locations such as unprotected, deep valleys, open rivers, water bodies, wells etc.
- Group and group leader system
- Complete safety gear during adventure activities
- Wholesome and hygienic food
- First-aid kit, OTC medications for common ailments
- SMS updates at every stage of the trip

When it comes to children, no amount of care is enough. However, we do our best to create the maximum atmosphere of safety and security for the students, with minimal intrusion in their fun.

leadership

collective

the promoters

TEACH is promoted by individuals and organizations who have been pioneers in the field of educational tours, out of classroom experiences, aviation, hospitality, marketing with a collective experience of over 150 years

Kamps Holidays, that has, since 1996, been offering unique and educationally stimulating international & domestic experiences for schools and colleges and have been market leaders in the out-of-classroom learning environment.

Mr. Sanjay Kokate, who is a visionary in this space, acknowledged as an innovator in educational travel and has successfully fused knowledge with fun, culture, national & international integration through path-breaking ideas over the last 18 years as the head of Kamps Holidays.

Vimaan Holidays, engaged in travel consulting and tailor made vacations for corporate and groups, has been in the niche business segment for over a year with the promoters having airline and hospitality industry experience at CXO levels.

Mango Innovations, an innovative marketing and advertising solutions company who have transformed several SMEs and product brands with their unique and out of the box ideas for the last few years.

a spectrum of expertise

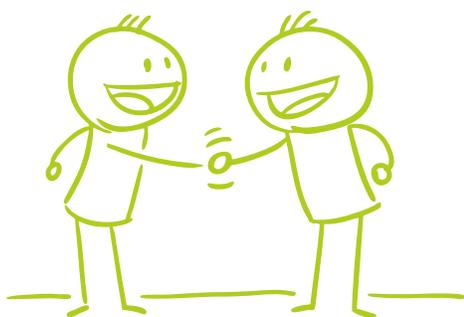

advisory board

To guide us, nurture us and add universal vision to our enterprise, The TEACH Company is fortunate to have an advisory board comprising of successful professionals from various fields and specialties.

On our advisory board, we have Scientists, Filmmakers, Academicians, Environmentalists, Wildlife Enthusiasts, Artists, Architects, Doctors, Radio Jockeys, Yoga Gurus, Sports-persons, Software Professionals, Journalists, Life Coaches, Psychotherapists, Business-persons, Parents, Students, etc.

The advisory board provides us valuable concepts, ideas and an objectivity to make our products and services unique and the best in the world. The board also allows us to have a 360-degree view of educational tourism, and how it can contribute to the holistic progress of the students.

“

all journeys have secret destinations of which the traveller is unaware
